# Career guidance and support for east London graduates

Inspiring Success is a two-part initiative, designed to provide employability support and funding for unemployed or underemployed graduates from the east London Growth Boroughs of Hackney, Newham, Tower Hamlets and Waltham Forest.

## Career guidance

Originally developed in collaboration with the London Legacy Development Corporation and now by the kind support of the Peter Cruddas Foundation, Inspiring Success has been helping local graduates find graduate level opportunities since 2015. Our series of free practical workshops will encourage you to reflect on your own experiences, and learn how to market your strengths to potential employers.

Running over a series of evenings, the workshops will cover topics such as positive thinking and the significance of mindset and resilience in the context of job hunting or career progression. Sessions will include practical networking opportunities with major local employers. Sports Interactive, Here East, Morgan Stanley and Scope are just some of the employers who have taken part in previous years.

## 100% scholarships for postgraduate study

At the end of the workshop series suitable candidates can apply to be considered for a 100% tuition fee scholarship to study any full-time master's programme at Loughborough University London. The scholarship is supported through the kind support of the Peter Cruddas Foundation and Madison Square Gardens. To find out more about our master's programmes, please visit: [lborolondon.ac.uk/study](http://lborolondon.ac.uk/study)

## How to apply

Attending the workshops is free, but it is important that you meet the essential criteria before you apply to attend. To be considered for the 100% scholarship, individuals must attend all of the Inspiring Success workshops and complete a scholarship application form. # Previous winners

The Inspiring Success scholarship launched in 2015, and has already supported 12 local people to graduate from a postgraduate programme at Loughborough University London.

Tower Hamlets resident, Esi-June Mittee Adabunu competed a master's in Managing Innovation in Creative Organisations, and conducted award-winning research as part of her studies.

*"It felt amazing to be studying in east London: the area where I was born and raised. My course was challenging but it was a great experience and I really benefited from a great support network. I'm now in a graduate job with ING and studying at Loughborough University London provided me with a lot more options than I had before".*

Jasjoot Mudhar recently completed a master's in Media Clouds with Business with the support of the Inspiring Success scholarship. He is now working in his dream sector as an IT specialist.

*"I liked the sound of some of the programmes at Loughborough University London, and the idea of working with students who I would never normally interact with during my studies, like designers and entrepreneurs. Having the Inspiring Success scholarship has allowed me to concentrate on my studies and make the most of the experience".*
